

US-98/SR-158 Extension Projects Safe 98

SR-158 extension from east of Lott Rd. to Schillinger Rd: All girders have been placed for the bridge over Rodgers Rd and crews continue to place deck pans in preparation for placing deck steel and concrete. Crews filled and placed sod on the embankment around Seabury Creek as well.

SR-158 extension from east of Glenwood Rd. to west of Lott Rd: Initial asphalt layers have been placed on a portion of the SR-158 extension from east of Glenwood Rd. to west of Lott Rd. and crews continue clearing operations west of McCrary Rd. bridge abutment to prepare for roadway buildup.

Major Milestones

Other utility, drainage, and construction work not listed here will be performed simultaneously along with these items. The final wearing surface and permanent stripe and markings are added upon the completion of the project.

- Extend the eastbound bridge over Big Creek **Complete**
- Extend SR-158 from east of Lott Rd. to Schillinger Rd. **In Progress**
- Extend SR-158 from east of Glenwood Rd. to west of Lott Rd. **In Progress**
- Construct the Lott Rd. overpass and jug handle on SR-158
- Construct the bridge on Glenwood Rd. over US-98
- Construct the bridge on Wilmer-Georgetown Rd. over US-98 w/ a jug handle onto US-98
- Extend US-98 from the Mississippi line to 0.5 mile east of Glenwood Rd.
